

Section 2 — Plant-by-Plant Summary

Through Nov 9, 2025 • Panels 1–18 left to right; Stakes 1–4 within the raised bed.

Panel 1 — Basil (Left)

- **Container:** Round 8 in white pot (~0.94 gal)
 - **Soil Mix:** Miracle-Gro Moisture Control Potting Mix
 - **Notes:** Healthy, compact growth; recovered after pruning; ongoing harvest cycle. Cover or bring indoors ≤ 49 °F.
-

Panel 2 — Basil (Right)

- **Container:** Round 8 in white pot (~0.94 gal)
 - **Soil Mix:** Miracle-Gro Moisture Control Potting Mix
 - **Notes:** Slight leaf chewing noted; neem planned/started Nov 6; dense canopy, steady growth.
-

Panel 3 — Strawberry (New Transplant)

- **Container:** 6 in round black planter (6.69 qt)
 - **Soil Mix:** Nursery potting mix from new plant
 - **Notes:** Transplanted late Oct; flowering through Nov 9. Expect first runners Dec. Keep soil moist; avoid wet blossoms at night.
-

Panel 4 — Strawberry (Original)

- **Container:** 2.32 qt black pot (former tomato pot)
 - **Soil Mix:** Original potting soil + topsoil fill
 - **Notes:** Flowering strongly; weaker blooms trimmed Nov 2. Expect runners late Nov–Dec; prep extra pots for rooting.
-

Panel 5 — Lavender (Left)

- **Container:** 25 fl oz white pot (~0.78 qt)
 - **Soil Mix:** 1:3 Skoon/Potting Mix for drainage
 - **Notes:** Seeded Nov 9. Keep surface evenly damp until germination (14–21 days); full sun ~7 a–5 p.
-

Panel 6 — Lavender (Right)

- **Container:** 25 fl oz white pot (~0.78 qt)
 - **Soil Mix:** 1:3 Skoon/Potting Mix for drainage
 - **Notes:** Same as Panel 5; after sprouting, switch to dry-top watering (water only when top 1" is dry).
-

Panel 7 — Peppers (Window Planter)

Three separate stakes in the window planter.

Stake 1 — Scotch Bonnet

- **Container:** Window planter 23.5 × 6 in (Left section)
- **Soil Mix:** To be filled with potting mix at planting
- **Notes:** Vertical stake support added Nov 10; unplanted as of Nov 10.

Stake 2 — Orange Cali Wonder

- **Container:** Window planter 23.5 × 6 in (Center section)
- **Soil Mix:** To be filled with potting mix at planting
- **Notes:** Same setup as Stake 1; unplanted as of Nov 10.

Stake 3 — Jalapeño

- **Container:** Window planter 23.5 × 6 in (Right section)

- **Soil Mix:** To be filled with potting mix at planting
 - **Notes:** Staked for vertical training; unplanted as of Nov 10.
-

Panel 8 — Garlic & Scallions

- **Container:** Window planter 23.5 × 6 in
 - **Soil Mix:** Potting mix
 - **Notes:** Bulbs/clusters to be set pointy-side up, ~2" deep; mulch lightly once shoots emerge.
-

Panel 9 — Empty (TBD)

- **Container:** —
 - **Soil Mix:** —
 - **Notes:** Reserved.
-

Panel 10 — Shallots & Chamomile

- **Container:** Window planter 23.5 × 6 in
 - **Soil Mix:** Potting mix
 - **Notes:** Plant shallot sets ~2" deep, tips just exposed; start chamomile from seed.
-

Panel 11 — Arugula & Cilantro

- **Container:** Window planter 23.5 × 6 in
 - **Soil Mix:** Topsoil only (initial setup)
 - **Notes:** Thin arugula as needed; cilantro prefers cooler temps.
-

Panel 12 — Mixed Herbs (5 kinds)

- **Container:** Window planter 23.5 × 6 in
 - **Soil Mix:** Potting mix
 - **Notes:** Mixed culinary herbs; track individually in daily journal photos if desired.
-

Panel 13 — Broccoli & Chives

- **Container:** Window planter 23.5 × 6 in
 - **Soil Mix:** Topsoil only (initial setup)
 - **Notes:** Broccoli seedlings present; new chives to be (re)seeded; keep top layer evenly moist for chive germination.
-

Panel 14 — Empty (TBD)

- **Container:** —
 - **Soil Mix:** —
 - **Notes:** Reserved.
-

Panel 15 — Empty (TBD)

- **Container:** —
 - **Soil Mix:** —
 - **Notes:** Reserved.
-

Panels 16–18 — Raised Bed (2' × 6' × 10", brown)

Four separate stakes in the raised bed.

Stake 1 — Tomato (Husky Cherry Red)

- **Soil Mix:** Topsoil + sand
- **Notes:** Staked Oct 29; flowering early Nov; protect at ≤ 49 °F with frost cloth.

Stake 2 — Zucchini (new baby) & Green Beans

- **Soil Mix:** Topsoil + sand
- **Notes:** Direct-sown zucchini (young); green beans direct-sown last week; beans unsprouted as of Nov 9.

Stake 3 — Zucchini (direct-sown, established)

- **Soil Mix:** Topsoil + sand
- **Notes:** Largest direct-sown zucchini; steady growth.

Stake 4 — Zucchini (transplanted)

- **Soil Mix:** Topsoil + sand
- **Notes:** Recovering from transplant; new center growth emerging.
